7200 SERIES

DREAMS COLLECTION
Limited Edition

MADE WITH SWAROVSKI® ELEMENTS

The Dreams Collection is the offspring of an encounter between Elvox advanced technology and the brilliant creations of SWAROVSKI ELEMENTS. A delightful variation on the theme of high-quality video door entry systems applied to the cover of the 7200 model, embellishing an everyday household object with subtle touches of luxury, and transforming it into a personalised furnishing accessory and a mark of distinction.

A mesmerising mosaic of reflections that imaginatively connects sight and touch, functionality and aesthetics, reality and imagination in a stylish innovation that radiates striking visual appeal. Available in chrome, gold plating, and black. Dreams Collection is presented in an exquisite gift box, perfect for a prestigious present, highlighting the beauty of its content by reflecting it in a myriad seductive rays of light.

Flush wall-mounting open-voice monitor
with 7" widescreen TFT LCD colour display

SOUNDSYSTEM

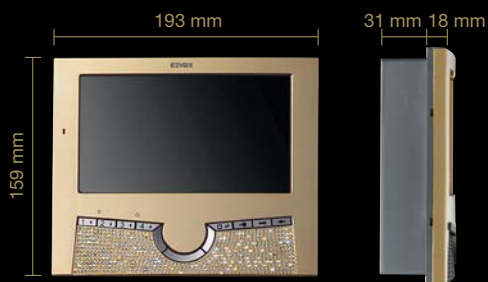

DUEFILIELVOX

DIGIBUS

Flush wall-mounting open-voice monitor with 7" widescreen TFT LCD colour display

- 7" high-resolution widescreen LCD monitor, for crystal-clear digital images.
- Wider field of vision due to the 16:9 aspect ratio, providing a clear view of visitors positioned at each side of the frame.
- The external appearance of the monitor can be personalised with a wide range of cover finishes and colours. Customers are sure to find the right solution whenever they decide to change the furniture or interior decor of the room.
- Highly functional keyboard with LED backlighting for easy operation even in poor lighting conditions.
- Brightness adjustment, ringtone volume and a choice of 7 different melodies.
- Equipped with dedicated push-buttons for self-start, stair light, door lock release and reply functions.
- Open voice system with "hands-free" function (no need to keep the reply button pressed during the call).
- Possibility of operating up to four auxiliary functions in the Two-Wire and Digibus versions, or intercommunicating calls in the Two-Wire version, using the buttons labelled 1-2-3-4.
- Green LED "door open" signal.
- Privacy function which disables the ringtone. In the Two-Wire and Digibus versions, when the ringtone is disabled a red LED will indicate up to 5 unanswered calls by emitting a series of flashes.
- Installation requires the flush-mounted back box type 7249, made of ABS plastic. It is supplied with a cover to prevent the ingress of mortar and grout during masonry work. The dimensions of the hole for flush wall-mounting are 189x160x52 mm
- **A product designed and manufactured entirely in Italy.**
