IP 7" Colour TFT Monitor

Installer Manual

Please read this manual carefully before using the product, and keep it for future reference.

We reserve the right to modify the specification of the product in this manual at any time without notice.

This information is specific to the IP-MW7, please refer to the IP-M7 manuals for general installation information

Contents

This guide provides additional information on the IP-MW7 Monitor. Refer to the IP-M7 guide for installation and installation information.

Please refer to the IP-M7 Installer and User manuals for further information.
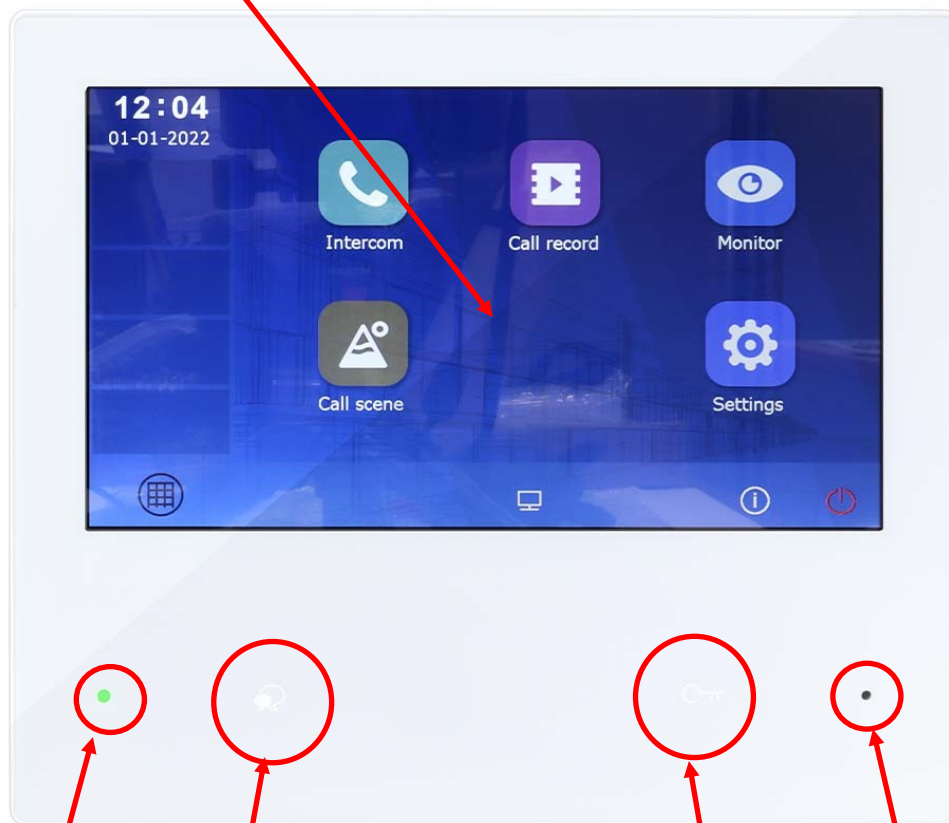

Important Information

By default the monitor has two functions 'Enabled'

1   Self Start (Monitor function) this enables the camera in the door entry panel(s) to be turned ON remotely by the monitor.

2   Intercommunication between dwellings, this enables one dwelling to call another via a 'Names List'

If these functions are NOT required they must be disabled in Installer Settings when the monitor is installed and configured. See sections 6 and 7 of the IP-M7 manual for the functionality and section 13 of the IP-M7 Installer Manual for enabling and disabling the functions.

1. Parts and Functions
