

**EDVAX** DOOR ENTRY

TAB5SUP  
Your life  
is always  
connected.

## Tab 5S Up

The new connected  
5" touch video  
entryphone.

The beauty of  
communicating.  
At home or out and  
about, safely.

**Slimline design.**  
Simplicity of shapes.

A simple, compact and functional shape. Silhouettes that blend in seamlessly with the transparency of the glass cover with a bright white finish. Tab 5S Up is incorporated lightly into any wall, delicately into any setting.

13 mm

Slim thickness of the profile:  
protruding by just 13 mm.

## Easy design. To manage everything.

**Hidden speaker**  
for better styling results.

**Capacitive keyboard.**  
Touch controls with intuitive icons and LED backlighting.

-  Talk / Listen
-  Video entryphone self-start
-  Ringtone muting during a call
-  Auxiliary function activation
-  Door opening

**5" touch screen display.**

The colour display frames a high definition image (800 x 480 pixels) of who's ringing at your door.

**User-friendly graphic interface.**  
Smart menu with scrolling pages and selectable black or white background.

 **Optical and audible signalling.**  
Crystal-clear sound and visual feedback confirm the activation of the functions, facilitating use for the visually impaired or hearing aid wearers too.

**4 light signals**  
for quick warnings:

-  New messages present
-  Wi-Fi connection status
-  Door open function
-  Ringtone mute

Hello,  
here's your  
take-away  
lunch

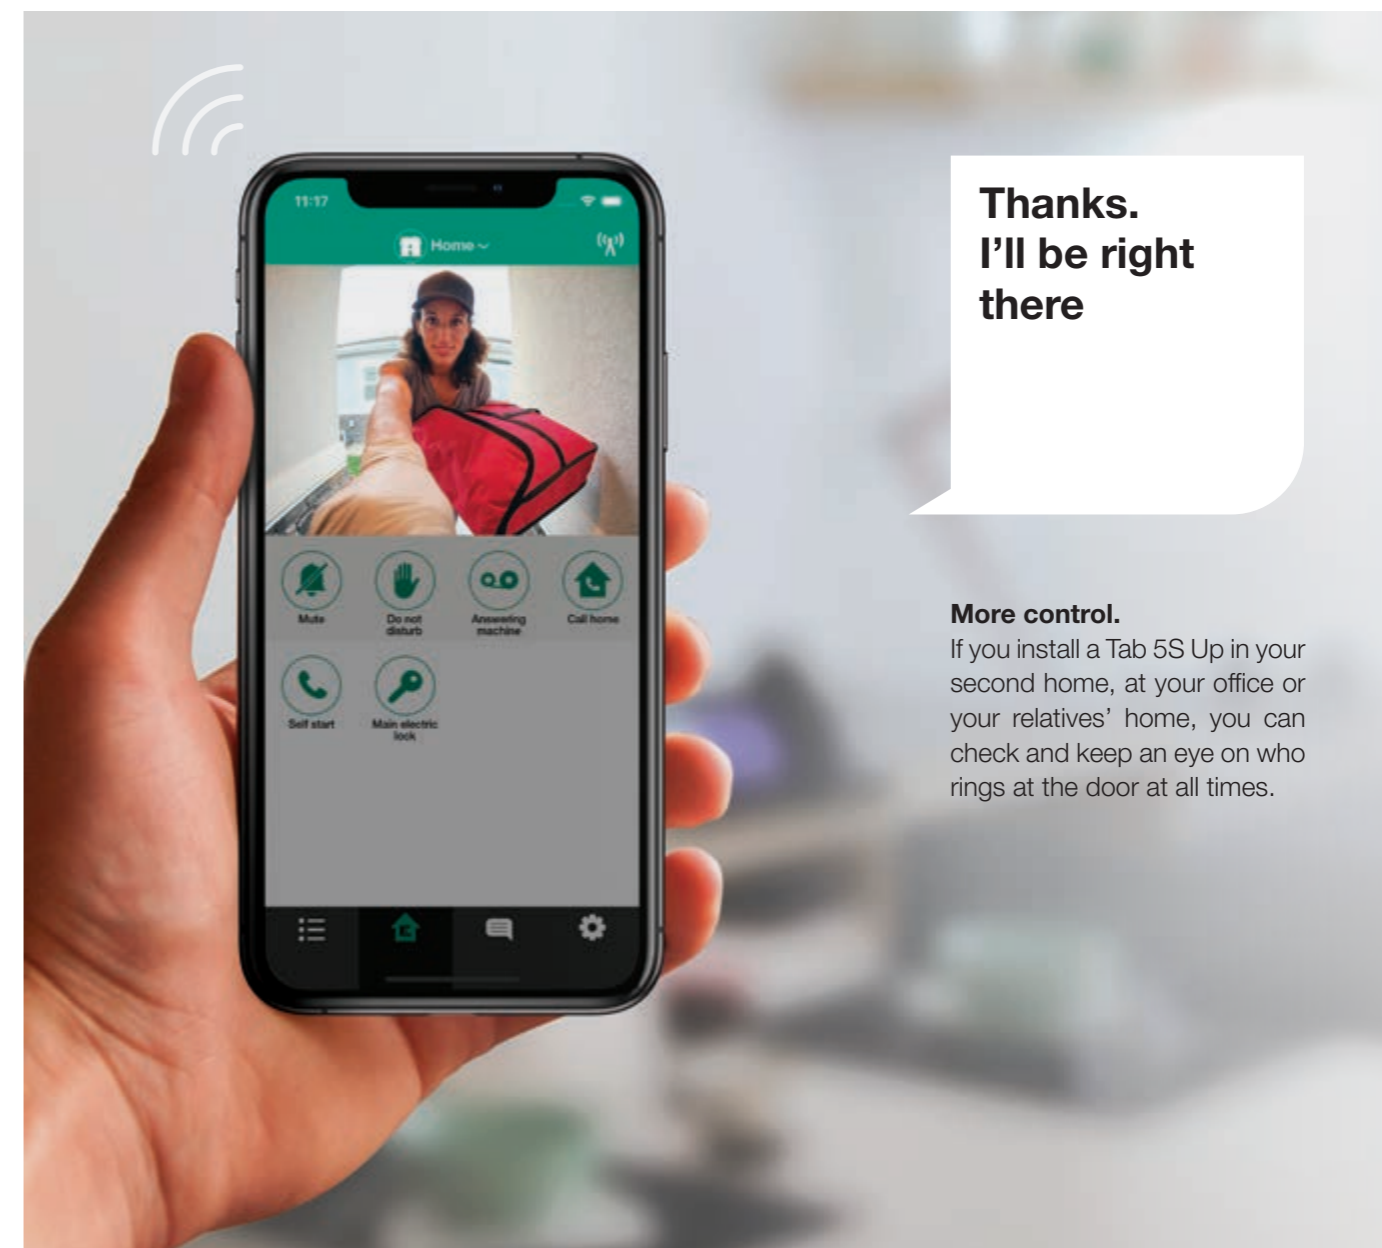

## Tab 5S Up. Immediately connected to your life.

**Answer, wherever you are.** In addition to conventional video door entry functions, Tab 5S Up also features integrated Wi-Fi to allow you to manage your calls via the restyled Video Door App. If you're not home and the courier comes, you can speak to him and make arrangements for the delivery; if you're in the garden or on the terrace, a simple tap on your smartphone will open the door to your guest. You no longer have to worry about not being home: every time a visitor rings at your door, the call will be forwarded directly to your smartphone.

Video Door

Thanks.  
I'll be right  
there

**More control.**  
If you install a Tab 5S Up in your second home, at your office or your relatives' home, you can check and keep an eye on who rings at the door at all times.

## Tab 5S Up and Video Door App.

Functions for more control.

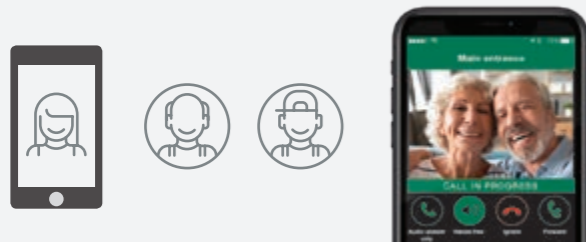

Video Door

**Very simple configuration.**  
In just a few steps, you can associate the Video Door App with the video door entry functions of your system thanks to the use of intuitive wizards.

### INTERCOM CALLS

In addition to talking between two video door entryphones in the same building, thanks to the Video Door App - from each system manageable - you can also make calls to and from the associated mobile device. Immediate and direct dialogue with your home, but also with your loved ones who, if they need help, can call your smartphone directly from the video entryphone.

### OPENING THE ENTRANCE GATE

When you're not at home, but you need to let someone onto your property, you can open the gate from your smartphone or tablet. Problem solved.

### ACTIVATING AUXILIARY FUNCTIONS

When on holiday or simply out and about, a simple tap on your smartphone or tablet will ensure your garden gets exactly the amount of water it needs, for instance. Or you can open gates, garages and doors, turn on the lights in the garden or along the path.

### CONTROLLING ALL THE CAMERAS

The video entryphone or smartphone and tablet give you round-the-clock control over all spaces, and you can keep an eye on things at all times. You can view the images of the cameras associated with the system or activate the video entryphone camera, without anyone ringing at the door.

# Tab 5S Up and the Video Door App.

Your spaces with you and at your fingertips, any time.

**Tab 5S Up and the Video Door App are a winning combination.** With a single App, you can easily and safely manage up to 5 different video door entry systems: for instance, your main home, your holiday home, the office and your relatives' homes too. And calls can be forwarded to up to 10 different users. To enjoy life and get out and about freely and with peace of mind, without ever losing sight of what's going on in your space.

## Multi-system

Up to 5 systems can be controlled with a single App.

My house

Seaside home

Office

Parents' house

In-laws' house

Intuitive, simple and versatile.

## Multi-user

The video entryphone forwards the call to 10 users.

(3 users with a preview option)

Luke

Anna

Mum

Dad

Fred

Monica

Andrew

Mark

John

Alice

## Multi-language

8 language versions (Italian, English, French, Spanish, German, Greek, Portuguese and Arabic).

## Multi-system

**Video Door** App manages and receives notifications from 5 different systems, with both Due Fili Plus and IP technology.

## Tab 5S Up.

Maximum installation flexibility.

### Surface mounting.

Tab 5S Up can be surface mounted directly or using the dedicated bracket or using a flush mounting box.

### Easy wiring.

The bracket is separate from the monitor and equipped with removable terminals, for super simple wiring. Once the bracket is in place and the cables are connected, simply hook the body of the device in place by turning and pressing it; There is a tamper protection screw to ensure the two elements cannot be separated.

### Semi-flush mounting.

To obtain minimal protrusion from the wall (13.1 mm), Tab 5S Up can also be semi-flush mounted using the dedicated mounting box for masonry and hollow walls with a grab handle to make installation easier.

### Table mounting.

Tab 5S Up can also be mounted on a dedicated optional desktop base. The ideal solution for offices or professional practices.

Also ideal for updating or refurbishing existing systems.

### You can update your current video door entry system in a few simple steps.

Simply replace your old video entryphone using the existing cables.

- Tab 5S Up can be installed in any existing Due Fili Plus video door entry system.
- Up to 16 video entryphones can be installed with a single system power supply unit.
- Easy and fast configuration wizard, compatible with smartphones and tablets.

## The TAB range.

We open doors to the world.

The TAB range has been completed with the 5" version with its restyled design and integrated wi-fi. Top-quality materials, stylish silhouettes, prized finishes for functional styling and totally user-friendly operation. Superior technological performance levels and a wide selection of indoor stations, both video entryphones and entryphones, complete solutions devised specifically to adapt to various interior décor styles, with elegance.

### TAB 7 and 7S

Stylish, light silhouettes, like all the models in the Tab series, yet revolutionary in their functions. In addition to traditional video door entry functions, Tab 7S - thanks to the integrated Wi-Fi and Video Door App - allows call repetition on your smartphone, ensuring total control even when you are out and about.

### NEW TAB 5S UP

### TAB 4.3 and TAB FREE 4.3

The generously sized display is designed to communicate with the outside in complete freedom while keeping your hands free, providing a generous view of the world outside your home. A compact and stylish video entryphone, with gentle silhouettes that soften the corners and extend across the entire smooth, glass-like surface.

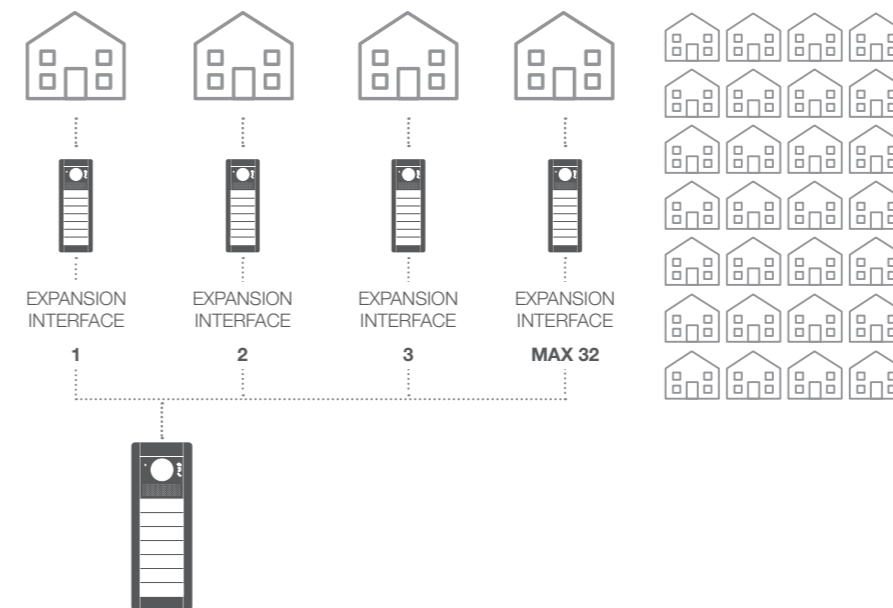

## The advantages of Due Fili Plus technology.

**Due Fili Plus technology guarantees faultless connections** between all devices used for receiving and transmitting power, audio, video and data signals. It is used to create high-performing video entryphone and entryphone communication systems in all types of building, whether new builds or refurbishments, in the simplest possible way.

### UP TO 6,400 INDOOR STATIONS

With Due Fili Plus technology, systems are designed to handle up to a maximum of 484 outdoor stations and up to 6400 indoor stations. With the expansion interface, you can expand the system by replicating several Due Fili Plus systems with up to 32 blocks and 128 reception video-switchboards.

### UP TO 1,200 METRES

Due Fili Plus technology can be used to create extended systems, with a distance between the indoor station and outdoor station of up to 1200 metres, without losing any audio or video signal quality. The signal is carried along a single, small-diameter twisted-pair cable.

### SIMPLE CONFIGURATION

Due Fili Plus technology ensures really simple programming. The installer can programme the outdoor station directly from the indoor station. Once the indoor station has been encoded, the system can even simulate an audio/video call from the outdoor station, to check whether installation was successful straight away.

## General characteristics.

Tab 5S Up.

### Fixing bracket.

Supplied as standard with the Tab 5S Up video entryphone, it is designed to be fixed on flush mounting, surface mounting and desktop base mounting boxes. Designed for quick attachment of the video entryphone with the utmost ease.

Snap hooks for the video entryphone.

1

### Tab 5S Up video entryphone.

With integrated Wi-Fi for connection with smartphone or tablet. The **Video Door** App allows you to manage video door entry calls, see the video surveillance cameras or even open your door remotely, wherever you are.

### 5" LCD display.

Capacitive touch screen display, so you can manage all the video door entry functions, intercom calls, brightness control, conversation and ringtone volume.

### Bright white finish.

Glass cover for a charming game of transparencies.

### Capacitive keyboard.

5 keys and touch controls with backlighting, to activate the main video door entry functions quickly.

### Optical and audible signalling.

Optical feedback that confirms the activation of functions for the visually impaired or hearing aid wearers.

Hook to secure/release the video entryphone to and from the bracket.

2

### Terminal block with Faston contacts.

To assist the video entryphone wiring to the system, the pull-out terminal block was inserted directly in the bracket. The contacts on the terminal block allow the video entryphone to be connected to the system quickly. The pull-out terminal block makes video entryphone connection easy in those cases where a mounting box is not envisaged and the cable is directly available.

## Mounting methods.

Mounting	Components for mounting
<p>Semi-flush</p> <p>13.1 mm</p>	<p>40590</p> <p><b>With semi-flush mounting box 40590.</b> In plastic, it can be mounted on masonry walls or hollow walls. The box guarantees the protrusion of the Tab 5S Up video entryphone by just 13.1 mm.</p>
<p>Surface</p> <p>24.4 mm</p>	<p><b>With flush mounting boxes.</b> The bracket is designed to be fixed on 2-module round (71701), 3-module rectangular vertical/horizontal (V71303/V71703), 4+4-module rectangular (6149 or V71318/V71718 with accessory 755S) flush mounting boxes.</p>
<p>Table</p>	<p>40595</p> <p><b>With desktop base 40595.</b> In transparent plastic with non-slip rubber pads and cable outlet for Due Fili Plus cable. The base is fixed to the video entryphone bracket using the screws provided.</p>

## Tab 5S Up: Due Fili Plus pre-programmed kit

### Single dwelling hands-free video door entry phone kit

Single dwelling video door entry phone kit for installation of a video door entry system in a single dwelling using Due Fili Plus technology.

The kit contains:

- a hands-free Tab 5S Up video entryphone with 5" colour LCD screen with capacitive keypad and touch-screen display for video door entry phone system functions: talk/listen, lock release, self-start, call transfer, auxiliary services (e.g. stair lights), ringtone mute and intercom calls. With built-in Wi-Fi for smartphone calls with the Video Door app.
- 1300/E series colour audio/video panel 1 module 40151, with electronic unit 40135 with box for wall or flush mounting.
- power supply 6922.1 with 30 Vdc output, supply voltage 110-240 V~ 50/60 Hz, mountable on DIN rail (60715 TH35), occupying 8 x 17.5 mm modules.

### Main specifications

Video door entry system kit for connection with only 2 non-polarised conductors (twisted) for video entryphone/power supply, power supply/entrance panel, entrance panel/lock, with call transfer using the Video Door app on smartphone (not supplied).

Recommended use of cable 732H.E.100, 732H.E.500, 732I.C.100, 732I.E.100, 732I.E.500, not supplied. The kit can be expanded with the addition of other video door entry units and entrance panels.

Power supply 110-240 Vac 50/60 Hz.

### Video Door app

Immediate and intuitive app used to manage video door entry system functions from your smartphone and tablet. With the Wi-Fi built into the Tab 7S and Tab 5S Up video entryphone, using the app you can receive calls from the entrance panel, make intercom calls, open the lock, activate auxiliary services (switch on the stair lights or the irrigation system, etc.), send and receive text messages or consult recorded messages.

using the easy and intuitive interface it is possible to configure the smartphone or tablet using the wizard or by scanning the QR code, which can be found on the video entryphone display, without modifying the router settings or signing up to other configuration services. The App has been restyled with the addition of the new "Multi-System" and "Multi-User" functions.

App **Video Door** available on Vimar site and Apple and Google Play stores

## Tab 5S Up: Due Fili Plus pre-programmed kit
